YALE BOWS TO PRINCETON BY 20 TO 0 SCORE

Old Eli Eleven Outplayed Throughout by Tiger Squad.

DON LOURIE A HERO

Quarterback's Dash for Touchdown Through Entire Team.

RUNS FORTY-ONE YARDS

Mike Callahan and Keck Share in Glory of Princeton Triumph.

Technical analysis of the Yale-Princeton game by Parke H. Davis will be found on Pages 1 and 2 of the Sporting Section.

PRINCETON, N. J., Nov. 13.—Princeton's football eleven to-day broke a hoodoo of twenty-three years and defeated Yale for the second year in succession. An running up a score of 20 points, including two touchdowns and two field goals, against nothing for Yale, Don Lourie of Peru, Ill.; Mike Callahan of Lawrence, Mass., and Stanley Keck of Greensburg, Pa., joined the galaxy of Orange and Black gridiron heroes who have contributed sensational feats in defeating an ancient foe.

Lourie made the prettiest play of the game just as the first half was coming to an end. Princeton had the ball for a first down 41 yards away from Yale's goal. It was obvious that there was little time left in the period. Keck dropped back from the line to the kicker's position and Murray lay on the ground in front of him at the 51 yard line as if to hold the ball for a place kick. Keck being particularly adept in that respect.

Then ensued a surprise. Lourie received the pass perfectly from Mike Callahan, scrambled to his feet, circled Yale's right wing, dodged, sidestepped and straightened and crossed the last white line to the amazement of both the Yale team and the 50,000 spectators.

Princeton's cup of joy began to run over before the first period was less than two minutes old. Princeton punted in the first lineup of the half from its own 30 yard line to Yale's 20 yard line, where Thorne Murphy misjudged Scheerer's spiral and muffed it. As the ball rolled back toward the Yale goal Mike Callahan, whose blond head was in the air, dove for the field, picked it up and ambled across the Yale goal line for another touchdown.

Later in the third period Keck kicked a field goal from the 35 yard line, with Lourie holding the ball just as he had bluffed at doing before making his sensational run. The other Princeton score was a field goal by Murray on the first play of the second period, a dropkick from the 35 yard line.

Yale never compared with Princeton except for a flash in the second period, when after advancing the ball from its own 42 yard line to Princeton's 22 yard line, it found its offence checked and tried for a field goal. Murphy made the kick, but the ball was wide. This advance involved ten plays, in which one short forward pass of five yards and two slices of tackle of eight yards each by the brilliant Kelly were features.

For complete story of Yale-Princeton game see pages 1 and 2 of sporting section.

POLES CAPTURE TWO TOWNS IN LITHUANIA

Strong Offensive Begun by Gen. Zellgoushi.

COPENHAGEN, Nov. 13.—A strong offensive by Polish troops was begun Wednesday on the northeast Lithuanian front, according to a Kovno despatch to the *Berlingske Tidende* to-day. After fighting the towns of Smotny and Turmond were occupied by the attacking forces, which are now fighting outside Novo-Alexandrovsk, the reports state.

Disaffection is reported in the army of Gen. Zellgoushi, the insurgent Polish commander (whose troops presumably are the ones referred to in the Kovno message).

The towns mentioned in the foregoing are just to the south of the Dvina, in the region of Dvinsk. Novo-Alexandrovsk is approximately twenty miles southwest of Dvinsk, and Turmond is on the Dvinsk-Vilna railway line, about ten miles east of Novo-Alexandrovsk.

SOCIALISTS WILL SEND DELEGATE TO BERN

Parley to Discuss Changes in Moscow Internationale.

CHICAGO, Nov. 13.—The Socialist party of the United States will participate in an international conference in Bern, Switzerland, on December 5, according to announcement from party headquarters here to-day. The conference was called by Socialist parties of England, Germany and Switzerland, with a view to suggesting modifications of the Third (Moscow) Internationale, permitting admission of these parties to the international organization.

Delegates of the parties which called the conference and a delegate from America will confer with a Moscow representative at Bern in the hope of removing existing differences which these parties will not accept.

The American delegate has not yet been named.

NO VICTORY CUP FOR PRINCETON BY CRIME WAVE

Dry Men Pay Visit During Game and Take Over City's Supply of Liquor.

ELEVEN MEN ARRESTED

Ounce Bottles of Whiskey Bring \$1 Each From Glad Gridiron Enthusiasts.

Federal prohibition agents "called" at the Yale-Princeton football game at Princeton, N. J., yesterday, stopped several automobiles and peered under the seats, and then went down to the business section of the town and raided the Princeton and Nassau hotels—institutions famed to Princeton graduates. Altogether they took seven prisoners.

At the time Princeton rosters were going wild at Palmer Stadium the Federal agents were extracting all the alleged joy there was in the town. According to the reports they made later at Trenton headquarters, where they took their prisoners, they confiscated a touring car full of ounce bottles of whiskey, an entire barrel of whiskey and some creme de menthe and wines.

Left the Old Town Dry. Few of the 50,000 who saw the game and afterward—if they were supporters of Old Nassau—hunted the town over for means of celebrating the victory in the heroic manner it deserved, realized that anything had occurred until they discovered that Princeton was dry as a bone.

The Federal sleuths had worked quickly. They tried evidently to avoid creating a scene, but according to their report they interrupted a flourishing business in cheer dispensing at the very entrance to the stadium by the arrest of two men, said to be David Poininsky of 96 Albany street, New Brunswick, and Robert Pollin of Georgia road, New Brunswick. These men were said to have been selling the ounce bottles described as part of the confiscated loot. The price, according to the agents, was \$1 for the ounce bottle, and it was alleged many purchases had been found before the agents arrived.

Arrest Hotel Proprietors. Four of the agents got into the automobile with Poininsky and Pollin and on Nassau Inn. They found no liquor, but arrested the proprietor, L. R. Vogel, and two negro waiters, informing the prisoners they had heard from some one that liquor in pint and half pint bottles had been sold there. At the Princeton House E. J. Dehl, the proprietor, was arrested. The agents found a barrel of whiskey out of the place and found a supply of wines and creme de menthe.

A soda dispenser was the seventh prisoner. He was picked up at Chadwick's drug store after it was said, he had supplied two of the agents, who winked at him, with a stiff three finger drink. The raiders were helped by Philadelphia, Newark and Jersey City.

LAKE STEAMER FEARED LOST WITH CREW OF 33

Freighter on Superior Out in Terrific Storm.

SATLE ST. MARIE, Nov. 13.—Sixty hours overdue at this port, the steamer Francis J. Wilder, a steel freighter, with a crew of thirty-three men, is believed to have foundered in Lake Superior northeast of Whitefish Point.

Capt. William Mesler of the steamer John Erickson, which arrived here tonight, after battling her way through a severe storm, reported that he saw a vessel believed to be the Wilder drifting toward Pancake Shoals before the gale. At the height of the storm the vessel's lights disappeared.

KERMIT ROOSEVELT IN NEW SHIP FIRM

Delaware Corporation Has \$1,000,000 Capital.

Despatches from Delaware reported last night the incorporation of the Roosevelt Steamship Company with Kermit Roosevelt as one of the incorporators. The new company's capital was given as \$1,000,000, and the other members of the corporation as Max Zalka and Russell Goldman, both of New York. Nothing concerning the new company's business was disclosed other than its intention to construct, operate and own steamships.

Mr. Roosevelt could not be found last night at his home, 181 East Seventy-fourth street. At the office of Herman Goldman of 129 Broadway, an associate of Russell Goldman in a law practice, it was stated that the new company's business was on an extensive scale. Russell Goldman could not be reached.

Kermit Roosevelt's connection with the Roosevelt Steamship Company follows several months of association with other maritime firms.

The Greenleaf-Overnight from New York Super Ship. American's first Perfect for fast and comfortable travel.

LOCKWOOD WILL MAKE CITY LOOK INTO CONTRACTS

State Housing Quizzers Refuse to Be Shunted From Principal Objective.

LABOR GRAFT GROWS

New Disclosures to Throw Brindell's Achievements Into Background.

BUCKNER TO PROSECUTE

Grand Jury Will Get Evidence Wrung by Undermyer From Witnesses.

The Lockwood legislative committee and the Board of Estimate and Apportionment will confer to-morrow morning, and the former has decided that the city body is not going to investigate it the laudatory task of investigating all past, present and pending city contracts.

The Lockwood committee does not know that the city administration desires thus to pass the buck; it is suspicious merely. At any rate, should any member of the Board of Estimate or of the city administration suggest that the Lockwood committee put forty-six public school contracts under its microscope, and test the validity and honesty of \$62,000,000 worth of construction work that the city is having done, Samuel Undermyer, chief of counsel for the committee, proposes replying that the Lockwood committee refuses to do work that the city has ample machinery to do for itself.

The Lockwood committee has shown the way, he will contend, and has shown that it is absolutely necessary that every contract into which the city has entered should be inspected and reviewed publicly.

It has become known that the Lockwood committee wants a deep laid plot to sidetrack it into mazes through which it may stumble for months and become so involved that it will not be able to do its work.

Members of the committee and the police have encountered a mysterious something that has put them on their guard against just such a possibility. It is figured that the Lockwood committee, which has had to fight its way along against almost unanimous opposition from the witness stand, would like to work months, using the same tactics, to do the work that the city could do for itself in a few weeks.

PHILADELPHIA.

This city is fast taking a place of prominence in the annals of crime as the majority of murders go unsolved. During the first ten months of this year there were seventy murders, more than one-half of which remain complete mysteries. In several other the prisoners are still awaiting trial.

There has been such a vast increase in the number of violent crimes here that Director of Public Safety Corboy is planning a squad of automobile riflemen and an increase in the number of the uniformed police force. At present there are 4,475 men in the department. The appropriation for the department this year was \$6,200,000, but the expenses will total nearly \$7,000,000 because of the increase in crimes of violence.

PITTSBURG.

Thirteen murders which have occurred in this city during the last ten months remain unsolved by the police. Captain of City Detectives Edburn says there has been an increase of 20 per cent. in crime this year. In one week no less than thirty homes were broken in the more exclusive section of the city.

The appropriation given the Bureau of Police, which includes the Bureau of Supplies, by the City Council this year was \$1,750,000. The Bureau of Supplies receives approximately \$7,000 of this amount.

SAN FRANCISCO.

The records of the San Francisco Police Department show there were three murders so far this year in which no progress toward a solution has been made. One of these was a vendetta murder and the other two grew out of the liquor traffic. Policeman James Horton was shot and killed by liquor thieves. Sid Sedgewick, taxicab owner, was murdered by bootleggers in his taxicab office.

The city's police force consists of 962 men. The last appropriation was \$6,841,818. The captain of detectives says crimes of violence have increased since the advent of prohibition. Formerly crimes were most prevalent during the winter months, but last summer a record was established for crimes of violence.

ST. LOUIS.

There are three unsolved murders in St. Louis for the first ten months of 1920, according to figures made public to-day by John P. Hannegan, chief of detectives. Crime, according to department records, is decreasing in the city. There have been fewer gang murders this year than ever before.

St. Louis police force has a personnel of 1,078 men. This force includes the detectives and the clerical force. Expenditures for the year total \$2,400,000.

Slow Clock in Station Costs Railroad \$500

Special Despatch to THE NEW YORK HERALD.

MOBILE, Ala., Nov. 13.—Mrs. Ellen Carey of Decatur, Ala., has been awarded \$500 damages by the Supreme Court against the Louisville and Nashville Railroad because a clock in the station at Decatur was slow. The court ruled that the railroad company was responsible for errors made by any clock or timepiece which it exhibited to public gaze.

The body of a son of the woman was on a train going to Hartsville, Ala. The clock in the depot showed 6:23 and the train left at 7:30. When the woman went to take the train by the depot time it was gone with the body. She sued for \$3,000.

LEAGUE ENVOYS READY TO MEET

Assembly Will Try to Function Under Covenant but Rules May Be Upset.

AMENDMENTS PROPOSED

Lord Robert Cecil Likely to Bring Up Question of Admitting Germany.

By the Associated Press.

Special Cable to THE NEW YORK HERALD. Copyright, 1920, by THE NEW YORK HERALD. GENEVA, Nov. 13.—At its first meeting the Assembly of the League of Nations will try to function under the covenant, with a programme arranged in its entirety by the secretariat and tentative procedure rules, which may be upset as soon as the meeting opens. A quorum of the delegates have come here primarily to satisfy themselves whether the league is dead or alive.

Another assembly meeting is certain to be held next spring, after the Republican policy of the United States is oriented. This policy is more likely to determine the fate of the league as it is now organized than will the meeting which opens here next Monday.

Delegations Very Large.

With diplomats here from all over the world, including some delegations like the Japanese, with more than sixty members, this meeting on the surface seems to approach the proportions hoped for by the enthusiastic covenanters. Regarding its practicability and the possibility of its being a real decision that will change the policies of the Powers are questions like disarmament and colonies, however, there are more doubts than believers.

Probably some idea of the temper of the gathering and the present attitude of the Powers toward the league may be obtained from the tentative rules prepared by the secretariat and brought up for discussion. These rules represent an attempt to supplement the covenant rules. They provide among other things that the credentials of any representative can be challenged by another representative, and upon a majority vote by the assembly the representative whose credentials have been so challenged can be unseated.

It is unlikely, even if it is adopted, that this rule will be invoked at the first session, but there is great discussion here of the right of Lord Robert Cecil to represent South Africa in the meeting, many persons contending that this is overriding the principle by which the Dominions got separate votes. Lord Robert, unless he is successfully challenged, will, it is expected, be a leading figure in the assembly meeting.

There is a report that he will arrange even his own Government for its attitude toward the league in connection with its failure to observe the mandate clauses and other requirements of the covenant.

To Bring Up Germany's Admission.

Also it was intimated that he would bring up the question of Germany's admission into the league if no one else does. Germany having made it clear through her Minister in Bern that she does not intend to bring up the question herself, it is expected that Lord Robert will do so.

It is likely that Henry R. Buckner, the latest addition to the council and associated counsel to the committee, soon will be clothed with the title of Special Deputy Attorney General, and thus equipped will commence presenting to the Grand Jury evidence on which indictments will be based.

Buckner on Swann's Payroll.

Mr. Buckner, it was explained yesterday, is not retained by the committee. He is now a Special Deputy District Attorney, drawing pay from District Attorney Swann's appropriation. He is in charge of the prosecution and of the investigation. As the committee turns up facts he will try to convert them into evidence.

A rather significant turn in the Lockwood committee's affairs is seen in a new attitude shown by members of the Building Trades Council. Now, contending that they have lost a great deal more than they gained by affiliation with certain unions, and particularly with the business agents of those particular unions, a number of workers—skilled and unskilled—have sought out members of the committee's legal staff and have told tales of graft and reprisals that just about destroy whatever credit they have earned.

The righted owner, fearing protracted delays and the loss of much money, pays the graft and the contractor and the business agent of the union split the swag on a percentage basis pro rata. There are a hundred and one stories just as wild as this to be heard.

LLOYD GEORGE LIKELY TO ATTEND SITTINGS

British Delegation Undecided About Admitting Germany.

By the Associated Press.

GENEVA, Nov. 13.—George Nicoll Barnes, one of the British delegates to the assembly, informed the Associated Press to-day that the declaration made at the time of the Paris conference that the British delegation would not be allowed to concentrate against the Wrangel forces. It was also stated that no reliance could be placed upon any peace the Bolshevik forces might make with the Poles, and that all that was wanted was a breathing spell by the Bolshevik troops so they could be disarmed, which had not been sufficient to enable Wrangel to withdraw.

REDS ATTACK WRANGLER ARMY FROM THE REAR

Break Through All Defences and Demand Unconditional Surrender.

SIMFEROPOL CAPTURED

Sebastopol in Danger and Evacuation of City Has Already Begun.

AMERICAN SHIPS AIDING

50,000 Panic Stricken Refugees Reach Port, but Only 20,000 Can Embark.

By the Associated Press.

SEBASTOPOL, Nov. 13.—The forces of Gen. Wrangel in the Crimea are in a most desperate situation. The Bolsheviks, having broken through all the lines of defence, are now attacking the Wrangel army in the rear.

The evacuation of Sebastopol probably will be effected by Sunday, according to quarters close to Gen. Wrangel, quoting him to that effect. Thousands of refugees, panic-stricken, fill the streets and wharves of Sebastopol. Ships of many nations are hurriedly taking refugees aboard, and the American Red Cross is loading its supplies. Rear Admiral Newton A. McCall, commander of the American naval forces in Russian waters, will stay at Sebastopol until the last minute with a small guard on the American destroyer Overton. The American colony has been taken aboard the Overton.

Demand Army's Surrender. It is reported the Bolsheviks have sent an ultimatum to Gen. Wrangel demanding the unconditional surrender of the "White" army. Twenty-five thousand Bolshevik cavalrymen are reported to have reached Simferopol.

The condition of the refugees is pitiful and they are suffering indescribable misery. Considerable looting is going on in the Crimea towns. All the refugees are clamoring to be taken aboard allied ships and feverish efforts are being made by the crews of French and British squadrons at Sebastopol to load as many refugees and their effects as possible. The number of refugees awaiting passage exceeds 50,000 men, women and children.

The United States cruiser St. Louis sailed from Constantinople for Sebastopol this morning for the purpose of embarking as many of the refugees as she can carry.

Gravest fears are now felt for Gen. Wrangel's army. With the entrance to the Crimea in the hands of the Bolsheviks, military observers say it is impossible for Gen. Wrangel to retain his defensive position in the Crimea.

Evacuation Begun.

PARIS, Nov. 13.—The French warships Waldeck-Rousseau and Provence are aiding in the evacuation of Sebastopol, says a Havas despatch, and are making special arrangements for the care of the military missions and the French colony. Measures are also under way for the protection of members of the Wrangel Government from Bolshevik reprisals.

The Bolsheviks have advanced beyond Perekop, advises received by the French Foreign Office show, and have captured 12,000 cartridges, 18 cannon, one tank, three armored trains, 10,000 shells and much transportation material.

Eighty thousand persons in Sebastopol seek transportation from the city, says a Constantinople despatch to Reuters, Limited. The despatch, which was filed yesterday, says the number of ships available is limited and that it is probable it will be impossible for more than 20,000 to embark. The first boatloads of refugees have arrived at Constantinople. It is said, but was not permitted to land, as housing facilities are limited and food is scarce. Their plight is declared to be very grave.

Gen. Wrangel's situation in northern Crimea is said to be desperate.

WASHINGTON GLOOMY OVER WRANGLER PLIGHT

Blamed in Lack of World Policy as to Russia.

Special Despatch to THE NEW YORK HERALD.

NEW YORK HERALD BUREAU, Washington, D. C., Nov. 13.—Information in possession of officials in Washington corroborates reports of the desperate position of Baron Peter Wrangel, the anti-Bolshevik leader in Southern Russia.

Anticipated success on the part of the Bolsheviks has created a wave of pessimism concerning affairs Russian and is regarded as clearly indicating the lack of a coherent world policy in dealing with the Russian problem.

At the time of the Polish encounter with the Bolsheviks bringing about a difference of policy between France and Great Britain it was represented that lack of unified action would result in the final defeat of Wrangel in the south. This appears to have been brought about.

France alone appeared willing to recognize Wrangel and gave him halfhearted assistance, which has not been sufficient to enable Wrangel to withdraw.

COOLIDGE NOT WORRIED BY CAPITAL HOUSE SHORTAGE

BOSTON, Nov. 13.—Despatches from Washington to the effect that legislation may be introduced to provide a home for the Vice-President in view of the house shortage were called to the attention of Gov. Coolidge, the Vice-President-elect, to-day. The Governor's manner indicated that he was not greatly interested.

"While the housing situation may be acute there just now," he remarked, "I understand a number of persons will be leaving the city shortly."
